

Mathematical Programming and Economics Workshop
on the occasion of the retirement of Professor Jørgen Tind

Thursday, June 21, 2007

Auditorium 6, Department of Mathematical Sciences
University of Copenhagen, H. C. Ørsted Institute
Universitetsparken 5, Copenhagen

- 10.00 - 10.40 Laurence A. Wolsey, Université Catholique de Louvain, Louvain-la-Neuve: "Lattice-based extended formulations for integer linear equality systems".
- 10.40 - 11.00 Coffee break.
- 11.00 - 11.40 Kurt Jörnsten, Norwegian School of Economics and Business Administration: "Equilibrium prices supported by dual price functions in markets with non-convexities".
- 11.40 - 12.20 Rainer E. Burkard, Technical University, Graz: "Inverse location problems".
- 12.20 - 13.30 Lunch.
- 13.30 - 14.10 Kathrin Klamroth, University of Erlangen Nuremberg: "Multiple objective programming, constrained optimization and approximation".
- 14.10 - 14.50 Christian Larsen, Aarhus School of Business, University of Aarhus: "The economic production lot size model extended to include more than one production rate".
- 14.50 - 15.10 Coffee break.
- 15.10 - 15.50 Kaj Holmberg, University of Linköping: "Infeasible inverse shortest path problems a la OSPF".
- 15.50 - 16.30 Jens Leth Hougaard, University of Copenhagen: "Cost allocation and convex data envelopment".
- 16.30 - 16.35 Closing remarks.
