

INDHOLD

- 1971 nr.2. H. K. Brøns: Mean-Values
- 1971 nr.3: Jørgen Larsen: Estimation in Exponential Families
- 1971 nr.4: O.Björnsson & H.Brøns: Statistical Mechanics of Independent Particles
- 1971 nr.5: H. Brøns & N. Keiding: Consistency of Maximum Likelihood Estimators in the Finite Case.
- 1971 nr.6: H. Brøns & I. H. Hansen: A Generalization of the Cramér-Rao Inequality
- 1971 nr.7: H. Brøns, I. Henningsen & S. Tolver Jensen: A Canonical Statistical Hypothesis in the Multidimensional Normal Distribution.
- 1971 nr.8: I. Henningsen: Canonical Hypotheses for Linear Normal Models
- 1971 nr.9: M. L. Eaton: Error and Variance in the Population Prediction Process.
- 1972 nr.1 S. Johansen: A Relation between the Imbedding Problem for Finite Markov Chains and Infinitely Divisible Distributions on Certain Semi Groups.
- 1972 nr.2: S. Asmussen: Construction of Branching Processes
- 1972 nr.3: M. L. Eaton: A Note on the Gauss-Markov Theorem.
- 1972 nr.4: S. Johansen: A Central Limit Theorem for Finite Semigroups and its Application to the Imbedding Problem for Finite State Markov Chains.
- 1972 nr.5: M. L. Eaton: A Probability Inequality for Sums of Bounded Symmetric Random Variables.
- 1972 nr.6: S. A. Andersson: Invariant Hypotheses I
- 1972 nr.7: S. A. Andersson: Invariant Hypotheses II
- 1972 nr.8:
- 1972 nr.9: S. L. Lauritzen: An Exact Similar Test of the Order of an Autoregressive Scheme
- 1972 nr.10: S. Johansen: The Bang-Bang Problem for Stochastic Matrices.
- 1972 nr.11: S. L. Lauritzen: Sufficiency and Time Series Analysis.
- 1972 nr.12: N. Keiding & J. E. Nielsen: A Remark on the Supercritical Branching Process with Random Environments.
- 1973 nr.1: F. L. Ramsey: On the Partial Autocorrelation Function for Time Series.
- 1973 nr.2: S. Johansen: The Extremal Convex Functions.

- 1973 nr.3: U. Møller: On Two Algorithms Finding the Maximal Flow in a Network.
- 1973 nr.4: N. Keiding: Estimation in the Birth Process.
- 1973 nr.4: N. Keiding: Estimation in the Birth Process (revised Vers.)
- 1973 nr.5: S. Johansen & F. L. Ramsey: A Representation Theorem for Imbeddable 3 x 3 Stochastic Matrices.
- 1973 nr.6: S.L. Lauritzen: Sufficiency, Prediction and Extreme Models (Original Manus fra Århus, Gert Schou.)
- 1973 nr.7: S. L. Lauritzen: Complete Canonical Exponential Models for Discrete Observations.
- 1973 nr.8: A. Hald: Optimum Double Sampling Tests of Given Strength.
- 1973 nr.9: S. Johansen: The Imbedding Problem for Markov Branching Processes.
- 1973 nr.10: S. Johansen: The Imbedding Problem for Markov Chains.
