

Department of Mathematical Sciences

sections

research areas

centres

Data Science Laboratory

Copenhagen Causality Lab

Mathematical Biology

Probability Theory

Statistics

Functional analysis, operator
algebras and descriptive set theory

Harmonic and classical analysis

Mathematical Physics

Partial differential equations

History of mathematics

Quantum information theory

Quantum for Life Centre

Centre for the Mathematics
of Quantum Theory

UCPH Quantum Hub

Section for
Statistics and
Probability Theory

Niels Richard Hansen

Section for
Insurance and
Economics

Mogens Bladt

Section for
Analysis and
Quantum

Henrik L. Pedersen

Section for
Algebra and
Geometry

Jesper Grodal

Head of Department
Mogens Steffensen

Deputy Head of
teaching
Tinne Hoff Kjeldsen

Deputy Head of
research
Mikael Rørdam

Head of
administration
Maya Jepsen

InterAct

Actuarial Mathematics

Applied probability theory

Econometrics and financial
economics

Mathematical Finance

Operations Research

Algebraic and Arithmetic
Geometry

Combinatorics

Geometry & Geometric
Analysis

Number Theory

Representation Theory

Topology
