

# Workshop

## Secondary and delocalized index invariants

The focus of the meeting will be applications of the analytic surgery group to geometry and topology, and in particular on delocalized invariants such as relative eta invariants and their higher analogues.

### Speakers include:

Vadim Alekseev (Technische Universität Dresden, TBC)  
Paolo Antonini (SISSA Trieste)  
Sara Azzali (Universität Potsdam)  
Ulrich Bunke (Universität Regensburg)  
Sebastian Goette (Albert-Ludwigs-Universität Freiburg)  
Alexander Gorokhovsky (Univ. of Colorado, Boulder)  
Paolo Piazza (Universita' di Roma "La Sapienza")  
Indrava Roy (IMSC Chennai)  
Anton Savin (RUDN University)  
Elmar Schrohe (Leibniz Universität Hannover)  
Georges Skandalis (Université Paris Diderot)  
Charlotte Wahl (Gottfried Wilhelm Leibniz Bibliothek)  
Ziezhang Xie (Texas A&M)  
Rudolf Zeidler (Universität Münster)  
Vito Zenobi (Université de Montpellier)

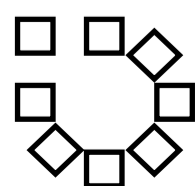

# 11-15 June 2018

Registration before 1 May 2018
